

installing signs throughout the Installation, establishing and rewiring a welcome center, assisting in the construction and installation of tent frames and even the installation of bed frames and mattresses in the dormitories. His overall work plan execution was magnificent and he guided his personnel through 18 hour work days, 7 days a week to get the work done, while still maintaining tremendous morale throughout his work force.

Another monumental mission for which Mr. Whitmore's expertise and ingenuity ensured a successful outcome was the role he played in establishing the security of Fort Dix immediately following the 9/11 terrorist attacks. This was a daunting task since the Installation had never been closed to through traffic in its 84-year history. He assembled a crew and equipment and worked with the police to close the Installation in a matter of hours. His expertise and unmatched knowledge of the Installation ensured that the dozens of means of access other than the main entry/exit points were identified and blocked. He has continued those efforts over the past 4 years to identify, develop and execute major projects to convert the temporary measures to permanent security barriers to include the installation of a 3½-mile-long security fence.

Mr. Whitmore's most recent accomplishment pertains to the exceptional work he has done on the development and execution of projects to establish a Forward Operating Base, FOB, to provide vital, realistic training to our soldiers being mobilized in support of the Global War on Terror. Steve planned and supervised the construction of the FOB, which is the largest, most complex FOB in the continental United States. Based on his actions, the FOB was built and maintained to a standard that allows the FOB to house, service, and provide realistic field training to approximately 2000 mobilizing soldiers at one time. Whether it was the electrical system, which he designed and had executed, the water and drain systems so that the Soldiers could take showers, the heating of the tents and even the clearing of the roads when it snowed, he was the one who made it all happen. Mr. Whitmore had the ideas, the ability to bring the ideas to resolution and ambition, energy and interest to accomplish whatever was necessary to make the FOB a success.

To this day he continues to provide the oversight for all utility services. His knowledge of the systems is legendary as is his ability to trouble shoot and quickly correct all system problems. He is a shining example of someone who adheres to the Army values in both his professional and personnel life. A man of strong resolve and unmatched abilities, Steve is a true patriot worthy of our Nation's thanks and praise.

TRIBUTE TO THE HONORABLE  
WILLIAM LAWRENCE

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 2, 2005

Ms. ESHOO. Mr. Speaker, I rise today to honor William "Bill" Lawrence, retired letter carrier and member of the National Association of Letter Carriers, San Francisco Branch 214, who is being honored by the Letter Car-

riers at their Biannual Congressional Breakfast.

Bill Lawrence began his service to our country when he enlisted in the Navy at the age of 16. After serving in China, he was honorably discharged and settled in San Francisco in 1927. He worked for several years as a cable car conductor, one of the few union jobs in San Francisco at the time. In July 1938, he began his career as a Letter Carrier, immediately joining Branch 214 of the National Association of Letter Carriers. Bill served as Secretary of Branch 214 for 6 years, and delivered mail on the streets of San Francisco for 35 years, until he retired at age 65.

In 1970, Bill Lawrence was elected to the non-partisan City Council of nearby Brisbane, California, and over the next two decades, served twice as Mayor. After his tenure on the City Council, Bill pursued his dedication to public service as the Legislative Liaison for the California State Association of Letter Carriers. Bill has always said that his love of politics stems from the rewarding feeling he gets from helping people. Now at age 97, Bill continues to delight children of all ages when he dresses as Santa Claus during the holidays.

I've always been proud to call Bill Lawrence my friend. He is a kind and generous man, and without his support and that of his wife, Honey Bee, I would not have been elected to the San Mateo County Board of Supervisors and to Congress.

Mr. Speaker, I ask my colleagues to join me in recognizing Bill Lawrence's countless contributions to our community and our country. Because of him and his distinguished service, we are unmistakably a better and more decent nation.

RECOGNIZING THE ALL KIDS  
HEALTH CARE PROGRAM OF IL-  
LINOIS

HON. RAHM EMANUEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 2, 2005

Mr. EMANUEL. Mr. Speaker, I rise today to recognize Illinois Governor Rod Blagojevich for establishing the All Kids health care program, and the Illinois General Assembly for passing this important initiative. This plan makes Illinois the first State in the country to provide comprehensive health insurance to every child in the State.

The All Kids program will target the estimated 253,000 uninsured children in Illinois; providing coverage for children from working families that earn too much to qualify for existing programs but not enough to purchase private health insurance.

According to a National Health Interview Survey, 39 percent of American children did not visit a doctor in the past year, and 38 percent have no regular facility to utilize for their health care needs. Because their parents cannot afford hospital bills, uninsured children are six times as likely as insured children to have serious health issues go untreated. As a result, they are at higher risk for hospitalizations and missed diagnoses of serious illnesses. Improved health care for children is not the only benefit of this program. Studies show that children with health insurance are more likely to attend school consistently.

Additionally, the grades and test scores for insured children are substantially higher than their uninsured peers.

By moving a majority of Illinois' Medicaid beneficiaries into a primary care case management program where every beneficiary has their own family doctor, the State will save millions of dollars that will be used to pay for the All Kids program and provide more Illinois children with basic health care.

The State of Illinois has taken responsibility for the children and their families who do not have this critical coverage. The program enacted by the State of Illinois is set to begin in July 2006.

With 45.8 million uninsured Americans in 2004, it is time to stop ignoring the problem and to start taking action. I congratulate the Illinois General Assembly and Governor Blagojevich for a job well done, and I urge my colleagues to take a look at what Illinois is doing to help provide health care for children.

FEDERAL HOUSING FINANCE  
REFORM ACT OF 2005

SPEECH OF

HON. JEB HENSARLING

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 26, 2005

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 1461) to reform the regulation of certain housing-related Government-sponsored enterprises, and for other purposes:

Mr. HENSARLING. Mr. Chairman, I first want to thank the gentleman from Ohio (Mr. OXLEY) and the gentleman from Louisiana (Mr. BAKER) for their leadership in getting this bill, H.R. 1461, to the House floor. Reforming the regulatory structure for the housing GSEs has clearly been a long time in the making.

I am going to vote for this legislation, and I encourage my colleagues to do the same. I believe that we must act as a body to move this process forward, and work with the Senate to draft a bill that President Bush can sign into law. We are all aware of the economic damage that took place in the wake of other corporate accounting scandals, be it Enron, WorldCom or Tyco. It is important to remember that in terms of assets, Enron was only about one-sixteenth the size that Fannie Mae is today. WorldCom and Tyco were about one-tenth the size of Fannie in terms of assets. These facts cannot be ignored. Legislation is long overdue.

However, I continue to have many concerns about certain provisions in H.R. 1461 that I believe could do more harm than good to our housing markets. Primarily, I am concerned that H.R. 1461 does not go far enough to protect our financial markets from the systemic risk posed by the giant portfolio holdings of Fannie Mae and Freddie Mac.

Federal Reserve Chairman Alan Greenspan has warned us that without the needed restrictions on the size of Fannie and Freddie's portfolios, our ability to preserve safe and sound financial markets is significantly put at risk. H.R. 1461 would not give the new regulator the necessary tools to appropriately limit the size of the portfolios of these two institutions. The combined retained portfolios of these two
